2. Body Assembly

Painting should be done before assembling.

For painting, use plastic model paints.

3. Body Mounting

Mount in orderly sequence.

Insert front of chassis into the front body mount holder.

Carefully spread the sides of the body over the chassis.

Squeeze the chassis into side body mounts.

Put the receiver antenna through the hole.

Since NSX GT2005 body is wide body specification, the following wheel & tire are recommended.

NSX GT2005 is wide body.
